Good morning,

I know that things are starting to "wrap" up at school and senioritous as set in. Remember school is not over yet! And if you need this class to graduate I would make sure to start looking into that now and not the week of finals. The sub will only be able input new grades, they won't be able to go back for you!

ANIMAL HYBRID

This next project is relatively simple and shouldn't take you that long.
- ☐ Find a picture of an animal
- ☐ Find another picture of an animal
- ☐ **SEAMLESSLY** combine the two.
- ☐ Add a background

You will have until Next Wednesday, April 22 to finish this.

I should have grades completely up to date by then.

Have a safe weekend.

-St. Louis
